

2nd CSH ASSOCIATE FACUTLY MEETING

Date: Thursday, March 14, 2019

Time: 10:00-13:00

Location: Palais Strozzi, Josefstädter Straße 39, 1080 Vienna

The purpose of the meeting is to update each other on the recent developments at the Hub, and to think jointly how we continue to create together an inspiring and thriving institution that is dealing with big data and complexity challenges. To better get to know each other we will shortly present recent research projects at the Hub and ongoing collaborations, and kindly ask you to contribute to building this institution. We hope this is stimulating new ideas for additional collaborations and projects we can start together.
